

pallets

new & recycled

With 40 years of pallet industry experience, it's no wonder Millwood remains an industry leader.

Think all pallet companies are alike? Millwood doesn't.

After more than 40 years of providing new and recycled wooden pallets, Millwood understands that customers demand more than uniform products and on-time deliveries from their suppliers.

They also expect competitive pricing, the ability to order by phone, fax or over the web, timely order information and accurate shipping and billing procedures.

With its *unit load* approach to improving quality and reducing costs, Millwood pallets are part of the complete package.

Benefits & Features of Millwood Pallets

- Millwood operates sawmills and 20 manufacturing/recycling facilities throughout the U.S., providing a complete line of new, reconditioned and recycled pallets.
- Millwood's national network of facilities guarantees the supply of pallets for every order across North America.
- National and Regional sales teams provide on-site customer support.
- Millwood offers multiple pallet sizes per truck, vendor-managed inventory (VMI) and Just-In-Time delivery (JIT).
- Pallets can be certified to meet ISPM-15 export requirements for timely international shipments.
- Millwood pallets are designed and manufactured to the product standards of the National Wooden Pallet & Container Association (NWPCA), assuring quality and customer satisfaction.

Providing Product
 Unitization & Logistics Solutions™

Millwood provides complete on-site analysis and program development of your pallet needs including:

- Pallet application analysis
- Material handling requirements
- Existing packaging equipment analysis
- Inventory management and tracking services
- JIT programs and VMI programs
- Pallet recovery programs

Types of pallets Millwood manufactures include:

- Hardwood & softwood (ISPM-15 heat-treat certified)
- Molded plastic - new and recycled
- Panel-Deck
- Corrugated/Fiberboard
- Export pallets - heat treat stamped and plastic
- Metal - aluminum and steel

Millwood uses state-of-the-art pallet design processes/applications analysis to create pallets by using industry-specific software which includes:

- Pallet Design System™ (PDS)
- CAPE Systems™ (design software technology)
- Custom design processes
- NWPCA specifications

Millwood continually investigates ways to help the environment.

- Full recycling programs to retrieve, inspect, recover, re-manufacture and/or return pallets
- Providing customer “specification” reconditioned pallets

Some of the services we provide include:

- Reconditioned pallets
- Remanufactured pallets
- Recycled custom and molded recycled pallets
- Scrap pallet removal and environmentally-friendly disposal

Millwood Incorporated is a worldwide industry leader and innovator of unit load and packaging systems, materials and services as well as a leading supplier of new, used and reconditioned pallets. Both small-to-midsize businesses and Fortune 500 companies have relied on Millwood’s pallet management expertise, material handling solutions and logistics services to provide strategic sourcing initiatives for over 40 years.
