

# recovery services

## When it comes to pallet recovery services, think Millwood.

You know Millwood as one of the largest manufacturers of new, used and reconditioned pallets in the U.S.

Millwood also offers complete pallet recycling programs to retrieve, inspect, recover and re-manufacture or repair pallets to customer specifications. Our programs include green disposal processes that are good for you and the environment. And with our *unit load* approach to delivering the complete package, we can assess a current pallet management program and make recommendations that deliver overall savings to our customers.

Millwood's recovery services include:

- Reconditioned pallets
- Remanufactured pallets
- Removal and disposal of packing materials
- On-site trailers, equipment (including lift trucks and balers) and labor to reduce direct labor, landfill and equipment costs

What's more, Millwood provides accurate accounting of inbound loads and reporting to the customers. That reduces billing disputes and charge backs.

As an integrator/manufacture of material handling and packaging systems with an international footprint, Millwood is the **One Stop Connection™** for your pallet, packaging and material handling needs.

### Millwood Recovery Programs

Millwood provides complete on-site analysis and program development for your pallet recovery needs. Co-mingling all types of pallets in Millwood's trailers offers the following benefits:

- Lower direct labor expense in the warehouse.
- More accurate grading procedure than in-house programs.
- Reduced dock space for sort process and storage.
- Reduces the number of docks used for loading pallets into trailers.
- Alternative programs require two separate trailers for rental pool returns and one for all other whitewood pallets.
- Accurate accounting of inbound loads and reporting to the rental pool company.
- Reporting available as required by the customer or via a secure web-site access.
- Combined with Millwood Logistics, our programs will reduce the number of customer trailers required to return rental pool pallets and may reduce overall transportation costs.
- Repaired pallets returned will meet the customer specifications and industry standards for downstream pallets.
- Improves the ergonomics and safety in the customers' distribution centers.
- Millwood has expertise in handling the freight duties for large distribution centers, including wholesale grocery and general merchandise.

Recovery programs provide environmentally friendly disposal through total utilization processes.

- Pallets reconditioned
- Lumber reclaimed
- Nails recycled
- Lumber to mulch

All non-recyclable or spent pallets will be discarded in an environmentally friendly method for multiple uses which include:

- Yard mulch
- Playground cover
- Boiler fuel
- Animal bedding
- Pellet fuel

Other types of recovery programs include:

- Stretch film
- Poly bags
- Film/Paper roll cores
- Corrugated containers
- Plastic and steel strapping
- Wooden boxes/containers

*Millwood Incorporated is a worldwide industry leader and innovator of unit load and packaging systems, materials and services as well as a leading supplier of new, used and reconditioned pallets. Both small-to-midsize businesses and Fortune 500 companies have relied on Millwood's pallet management expertise, material handling solutions and logistics services to provide strategic sourcing initiatives for over 40 years.*
